

Hey Neighbor!

Are you busy, tired, immobile? Do you need help with snow removal, or lawn care? Does your dog need a walk, do you need a babysitter? Instead of investing in big business for help, invest in your neighbourhood youth. A young person in your neighborhood is looking to help you out while earning some money.

Their goal is :

to save for a snowboard and contribute to the Stokenzie Children's Hospital Foundation.

They have the full support of their parent/guardian and would be happy to complete any of the following tasks, appropriate to their age and skill level:

- Snow removal. They would like to remove snow for two (2) of their neighbours. This can include a standard size driveway, sidewalks including the city sidewalk. They have their own shovel and their Mom is willing to help them out if the snow gets too deep.
- Babysitting. Your neighbour has completed a babysitting course and is really good with small children. They, and their parent, would like to get to know you to consider babysitting for you on evenings or weekends.
- Walk your dog. Your neighbour also loves animals and if you are busy, would be happy to walk your dog in your neighbourhood if he/she needs some exercise.

Support your youth, support your teams, support your community.
